DR. KNOX GOLF ACADEMY BACKGROUND INFORMATION

School District #23 (SD#23), in cooperation with local golf courses, driving ranges, local golf facilities, Canadian Professional Golf Association instructors, and the BC Golf Association is proud to offer the Dr. Knox Golf Academy (DKGA).

The DKGA was an idea that I (Mr. Roberts) had several years ago while teaching my physical education classes. In this amazing part of the world, golf was not being taught to any of our students. So, in consultation with local golf facilities, school district administrators, teachers, parents, and students, I saw this program as an opportunity for students to learn and hone skills and develop a passion for the great, life-long game of golf. Students will learn, practice, and play golf for their Physical and Health Education program.

In this program, students will receive both individual and group lessons from fully accredited CPGA professionals. After receiving instruction, students will practice at the range, then periodically go out on the course and put their new knowledge and skills into play.

The program is open to players of all ability levels, male or female, in grade 9. I have witnessed complete beginners learn some basic skills, practice, and progress into passionate golfers. As golf is the main theme for this Academy, we do want to encourage students keen about golf to take this opportunity to play more often and with more instruction so they can improve their golf skills and maximize their own potential. All students in the Academy are encouraged to become junior members at one of the area's golf courses.

The DKGA is an equity-based program and, therefore, will provide access to students who cannot meet the entire costs of the program. In such circumstances, an agreement would be reached between school administration, Mr. Roberts, and the participant in question.

At this time, the DKGA is open to 28 students. This will come under review as the program evolves.
